

## Confidential Product Study Guide

Tile Armor Maintenance Problem Solvers

June 10, 2008

<b><u>Product:</u></b>	<b><u>BathMagic</u></b>
<b><u>Package Sizes:</u></b>	24 Oz. Bottle (12- 24 oz. Bottles per case with sprayers)
<b><u>Product Description:</u></b>	<b><i>BathMagic</i></b> is a maintenance problem solver designed for regular usage in cleaning tubs, showers. And their associated fixtures. <b><i>BathMagic</i></b> will not dull, will not build-up or leave residues behind when used as directed. BathMagic quickly solves one of the toughest bath room cleaning problem areas. Soap combines with hard water mineral salts and forms a tough unsightly coating that binds tightly to all wetted bathroom surfaces. This coating attracts additional soil and in no time creates a build-up that is incredibly difficult to remove. <b><i>BathMagic</i></b> quickly cuts through the build-up and restores the original surface shine. Bath Magic contains no harsh abrasives and may be safely used on all polished surfaces.
<b><u>How to Apply:</u></b>	Spray surfaces to be cleaned. Allow <b><i>BathMagic</i></b> a few minutes to penetrate the soil build-up. Wipe with a non-abrasive pad, sponge or micro fiber cloth and rinse. The water will cleanly sheet from the surface and drying and polishing is not normally required. For best appearance on highly polished dark stones a quick dry polishing motion will give superior results.
<b><u>Product Benefits:</u></b>	<ol style="list-style-type: none"><li>1. Fresh mint scent formulation!</li><li>2. Labor saving.</li><li>3. Easy to use.</li><li>4. Non-abrasive formulation.</li><li>5. No harsh acids like Lime Away.</li><li>6. Non-flammable.</li><li>7. No harmful solvents.</li><li>8. Excellent coverage.</li><li>9. Biodegradable.</li><li>10. Does not build up on surface.</li><li>11. Will not dull polished surfaces.</li><li>12. Safe for plated fixtures.</li><li>13. Great for hot tubs and spas.</li><li>14. Does not streak.</li><li>15. Leaves no slippery residue.</li></ol>
