Tile Armor Maintenance Problem Solvers

June 10, 2008

- Product:** **SunBrite pH Neutral Cleaner**
- Package Sizes:** 1 Gallon (4 Gallons/case)
24 Oz. Bottle (12- 24 oz. Bottles per case)
- Product Description:** ***SunBrite*** is a fresh scented, high performance all purpose neutral pH cleaner for floor care and other maintenance cleaning applications. ***SunBrite*** is a concentrate and should be diluted with water prior to usage. ***SunBrite*** can be used safely on ceramic tile, marble, granite and all other natural stone, linoleum, concrete, painted and finished floors. In addition walls, counters, and other surfaces not harmed by water may be safely cleaned with ***SunBrite***. ***SunBrite*** imparts a wonderful, fresh clean aroma to the surface and surrounding environment when used.
- Where to Use:** ***SunBrite*** is a maintenance problem solver designed for regular usage for cleaning. ***SunBrite*** will not dull finished floors, will not build-up or leave residues behind when used as directed. Therefore ***SunBrite*** may be safely used on any hard substrate not harmed by water. In addition ***SunBrite*** does an excellent job removing ice melter residues found on floors during the winter months.
- How to Apply:** ***SunBrite*** is a concentrate and should always be diluted before use. Mix according to label directions in a bucket or pump up compression sprayer and apply to the surface to be cleaned with a mop, brush or sponge. Rinse and remove to see a clean fresh smelling gleaming surface!
- How to Maintain:** Dust mop surface regularly. Damp mop as soil conditions dictate using a solution ***Tile Armor Sunbrite pH Neutral Cleaner and Conditioner*** to keep sealed floors looking great!
